

Webinar

Navigating Battery Energy Storage Systems (BESS) Permitting

REGISTER NOW

Join us for an informative virtual workshop on permitting Battery Energy Storage Systems (BESS).

As the demand for energy storage grows, local governments play a crucial role in facilitating these BESS projects and guiding their safe, successful integration into communities. This webinar is designed to provide local government officials, planners, and industry professionals with key insights to bring these developments forward.

This virtual workshop will explore:

- Different permitting pathways for BESS projects
- Safety considerations and guidelines for BESS projects
- Multiple avenues for development and implementation
- Best practices and lessons learned by local governments

Join the Webinar

Friday, September 27

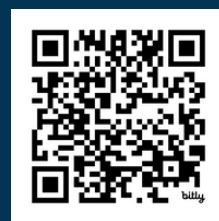

9:30 a.m. - 1:00 p.m.
